Dear Raven Parents,

As we enter another intercollegiate sports season, the Anderson University Sports Medicine staff is busy preparing for the arrival of athletes. We look forward to another exciting season of Raven athletics and hope we will see you often.

The purpose of this letter is to: 1) Request health insurance coverage information and 2) Provide an overview of the University medical insurance policy should there be an injury as a result of athletic participation.

First, the NCAA requires Anderson University to certify that all student-athletes have insurance for athletic related injuries. It is required that this coverage be in place before a student can practice or compete and must remain in force throughout the season. To fill out the required form to verifying the student-athletes’ medical insurance coverage, please visit the University athletics’ website. The insurance information must be completed before any participation in the intercollegiate sports program at Anderson University.

Along with completing the Insurance Data form, our Sports Medicine Staff needs a copy of the student-athlete’s health insurance card. This will ensure that we receive all the necessary information as many insurance companies are different. By copying the front and back of the insurance card, we hope to expedite the claims process. Additionally, health care providers now require a copy of the insurance card before services will be provided.

Second, it is important for you to be aware of the insurance coverage provide by Anderson University for student athletes to help cover medical expenses resulting from athletic related injuries. However, this insurance is secondary to the student’s primary medical insurance coverage and benefits are limited to athletic related injuries. The per injury/incident deductible on the university policy is $1,000 and the first $500 of the deductible is the responsibility of the student, parent or guardian. This deductible may be covered by the student’s primary insurance. Attached is additional information about the secondary insurance program provided by Anderson University. This information will assist you in understanding the secondary insurance provided for student-athletes and how the claim filing process. After you and your student have read this material, please sign the acknowledgement and return it to the Sports Medicine Dept.

If you have questions please contact Adam Crosby at (765)-641-4517 or by email at ajcrosby@anderson.edu.

Sincerely,

Adam Crosby
